MAPLE PAKISTAN
QUALITY PRODUCTS
(PRIVATE) LIMITED

Established in 2005, Maple Pakistan (Pvt.) Ltd. deals in explosion proof Ex-Certified Electrical Systems and Components to cater to the exclusive needs of Pakistan's oil, gas, chemical, fertilizer processing plants and related sectors. It was established as an independent entity, based on the guidelines of prestigious safety icon R-Stahl (Germany).

OUR VISION

To be the leader in delivering the finest and safest electrical systems and components for hazardous areas, empowering industries to operate reliably and securely while prioritizing innovation, sustainability, and compliance with the highest safety standards.

OUR MISSION

Our mission is to make harsh and hazardous areas safe for people by providing high-quality, reliable electrical systems and components tailored to their unique needs. We are committed to delivering innovative solutions that enhance safety, ensure compliance, and empower industries to operate efficiently, even in the most challenging environments.

OUR SOLUTIONS

Our perspective is clearly directed towards the customers by following 3 steps process: Pre-sale, pre-bid assistance for a safe and IEC Complied Electrical Solution Assistance in selection of the relevant Electrical component from our Ex Product Profile After-sales service and warranties.

EX CERTIFIED PRODUCT RANGES

- Luminaires
- CCTV Systems & Cameras
- Control System & Distribution Boards
- Socket and Plug
- Signalling Devices
- Instrumentation
- HMI Systems
- Control Boxes
- Cable Glands, Components and accessories
- Ground Monitoring Systems

CEO's Message

PERVEZ MADRASWALA
CEO
Maple Pakistan (PVT.) LTD.

As the CEO of Maple Pakistan (Pvt.) Limited, I am proud to introduce our company as a nationwide leader in providing **safe electrical systems and components for harsh and hazardous areas,** including **explosion-proof equipment, zone-specific solutions, and compliance-driven industrial components.**

We specialize in delivering tailored, high-quality solutions that adhere to international standards, ensuring safety, reliability, and excellence for industries operating in challenging environments. At Maple Pakistan, your safety is our priority.

Maple Pakistan (Pvt.) Limited

At Maple Pakistan (Pvt.) Limited, we understand the critical importance of providing safe, reliable, and high-quality electrical systems and components, particularly for use in harsh and hazardous areas. Unfortunately, such specialized equipment is not manufactured locally in Pakistan. As a result, industries across the country are often compelled to import these essential products.

While the process of selecting electrical components for hazardous zones might appear straightforward, it is, in fact, a highly intricate task requiring meticulous attention to detail. Identifying the safest and most efficient electrical solutions involves matching the equipment's protection level with the specific requirements of the designated zone. This ensures optimal safety and performance under challenging environmental conditions.

Our expertise lies in providing top-tier solutions through our collaboration with globally trusted brands like **STAHL.** It is known for it's unwavering commitment to safety and excellence, offering products that comply rigorously with the **IEC International Standards (60079 Series).** These standards define the framework for equipment used in explosive atmospheres, ensuring reliability and protection in even the most hazardous environments.

At Maple Pakistan (Pvt.) Limited, your safety is our highest priority. By delivering cutting-edge electrical solutions tailored to your needs, we strive to empower industries with the confidence and assurance they need to operate safely. Whether it's safeguarding workers, protecting assets, or ensuring regulatory compliance, we are here to provide solutions that set the benchmark for safety and reliability.

Products Portfolio

Signalling Devices

Linear luminaires

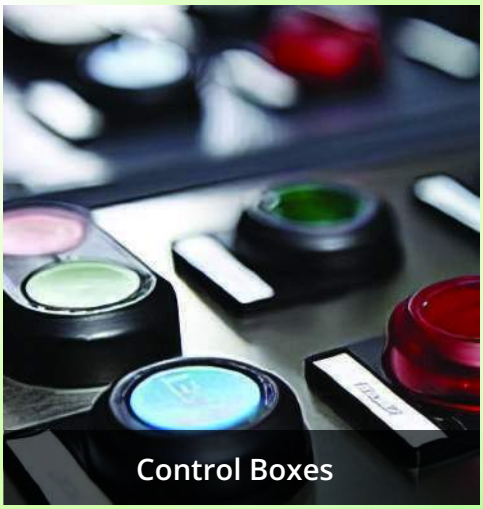

Tubular light fittings

Emergency luminaires

Floodlights

Control Boxes

Junction And Terminal Boxes

HMI System

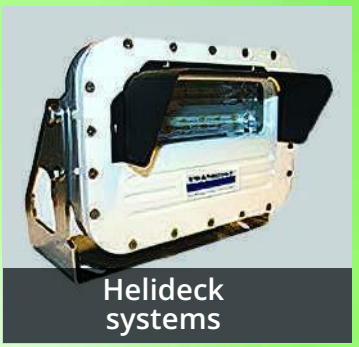

Pendant light fittings

Wall- and ceiling-mounted bulkhead light fittings

Plugs And Sockets

Helideck systems

Hand lamps

Camera And CCTV Equipment

Control System And Distribution Boards

Automation Interfaces And Solution

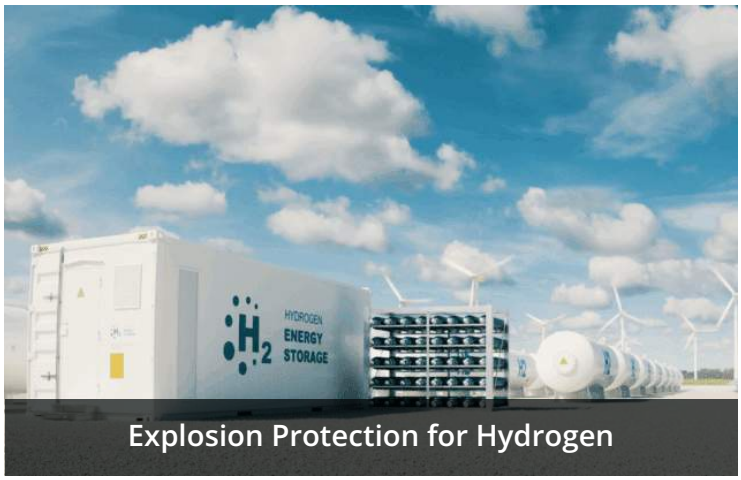

Cable Glands, Components And Enclosures

Industries

ADVANCED SOLUTIONS FOR HAZARDOUS AREAS

R. STAHL has the complete range of products for all industries, where explosive hazards exist. We offer the perfect, fool-proof solution that are the best in safety and efficiency for specific applications. How? Find out by reading about our current innovations and case studies.

Other Industries

Aviation

AVIATION LIGHTING & CONTROL SYSTEMS FOR HELIDECK

Our Aviation solutions provide compliant, high-performance lighting and control systems for helidecks, both offshore and onshore, as well as hospitals and other critical infrastructure. From obstruction and perimeter lights to full Circle & H solutions, windsocks, and status lights, our systems ensure maximum safety and visibility. Built for harsh environments and mission-critical sites, they deliver reliable performance across energy facilities, civil aviation, and emergency installations worldwide.

Circle & H

Perimeter Lights

Floodlights for Helidecks

Windsock

Obstruction Lights

Control System

Marine

MARINE LIGHTING & CONTROL SYSTEMS FOR SAFE AND RELIABLE SHIPPING

Our Marine portfolio is trusted worldwide for safe and efficient shipping operations. Our range includes navigation lights, searchlights, floodlights, control panels, and winterisation systems—all designed for maximum reliability in demanding marine environments. Built with durable, low-maintenance materials and certified to international standards, our solutions ensure safety, visibility, and long-term performance for vessels of all sizes.

Energy

ENERGY SOLUTIONS FOR OFFSHORE, OIL & GAS, AND INDUSTRIAL APPLICATIONS

There are few higher-stakes environments when it comes to safety and reliability than the oil and gas sector. That's why, for decades, operators have entrusted R. STAHL TRANBERG to ensure their operations run smoothly and to the highest safety standards.

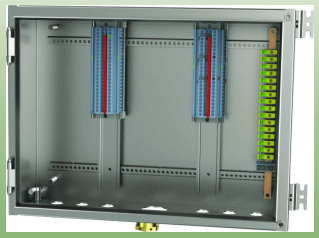

From high-voltage solutions, junction boxes, and control stations in hazardous areas to the latest in world-class heating and innovative lighting solutions, we support operators every step of the way.
